

January 15, 2021

Dear Residents, Families, Staff and Vendors of Roselani Place,

This week has brought some positive as well as concerning news on the covid-19 situation at Roselani.

As part of our routine testing regime of staff and residents, in connection with ongoing support from our epidemiologist and local state Health Department, since Jan 11th, we currently have 3 confirmed staff cases. In addition, since Jan 11th all residents have been tested and are both negative and presumptive negative. 10 results however are still pending as of today. Staff have been asked to quarantine at home for 14 days.

106 tests have been conducted on staff and residents. With 3 positive cases, that brings our positivity rate to 2.7%

Routine testing moving forward now will begin next week; we are grateful for the assistance of Donna Nozaki and the Maui District Health Lab for their assistance with this process.

Now that we have 3 staff with active cases, we will be adjusting our visitation and resident interaction policy to restrict family visitation of residents in the community. Video chat services will continue to be provided if you would like to speak with your loved one. Please contact Kalei in our Activity Department to arrange this video chat service. Please contact Christine or Faith to discuss future in-person visits.

With great anticipation of vaccine availability now on the islands, yesterday, January 14th – we were excited to host our first on-site vaccine clinic where we inoculated 58 residents with the Moderna covid-19 vaccine with the generous assistance of Dr Lorrin Pang, Heidi Tagoshi, and the Maui Health District Team. Lt Governor Josh Green and Mayor Michael Victorino were also on site before the clinic to speak with the General Manager, Faith Gianan and our wonderful nurse Christine Elumba, to discuss mitigating covid from our community. Plans are already scheduled for the 2nd vaccine shot at our community.

Stay safe everyone. We really appreciate everyone's support and patience with visitation restrictions back in place. Together, we will continue providing support to our staff and residents in the community.

For questions, please email the management company representative for Roselani Place, karl@psliving.com, or call the General Manager on site, Faith Gianan at 871-7720.

Best regards,
