

January 22, 2021

Dear Residents, Families, Staff and Vendors of Roselani Place,

During this past week, not much has changed concerning positive cases of covid-19 at Roselani.

As part of our routine testing regime of staff and residents, in connection with ongoing support from our epidemiologist and local state Health Department, since Jan 11th, we had 3 confirmed staff cases; 0 residents. We are glad to report 2 of the 3 staff came off quarantine this past week, so now we have 1 active staff case. This staff member will keep quarantined at home until being released from the Dept of Health.

Routine testing continued this week, and we are grateful for the assistance of Donna Nozaki and the Maui District Health Lab for their assistance with this process. 53 tests were conducted this past week; 17 are presumptive negative and there are pending PCR results for 28 staff, 4 residents.

Even though we have this positive news to look forward to and we obtain negative test results from this week, then beginning Wednesday, January 27, then we can go into Phase 2 of the DOH guidelines and resume resident and family outdoor visits again. Video chat services will continue to be provided if you would like to speak with your loved one. Please contact Kalei in our Activity Department to arrange this video chat service. Please contact Christine or Faith to discuss future in-person visits.

As part of our ongoing efforts to provide vaccinations to residents and staff, on February 11, at 3pm Dr. Lorrin Pang and the Maui Health District Team will be on site again to administer the 2nd Moderna shot for our residents. For more information and details on this, please reach out to Faith Gianan to provide more details to next week.

Stay safe everyone. We really appreciate everyone's support and patience with visitation restrictions back in place. Together, we will continue providing support to our staff and residents in the community.

For questions, please email the management company representative for Roselani Place, karl@psliving.com, or call the General Manager on site, Faith Gianan at 871-7720.

Best regards,
