

April 11, 2021

Dear Residents and Staff of Roselani Place,

Despite our best efforts to mitigate this virus, unfortunately, today we had 1 staff member that has tested positive during routine surveillance testing. This staff member is asymptomatic, is isolating at home, and is fully vaccinated.

Staff and residents have been contact traced and were notified immediately upon positive testing results of the staff member. Under the advisement of the Maui Health District Office, Dr. Lorrin Pang MD, Public Health & General Preventive Medicine Specialist and Takako Nakaaki, Epidemiological Specialist, and out of an abundance of caution, we will resume testing today of all residents and staff with the assistance of our Maui Health District Office. Staff will be tested every 3-4 days and residents every 5 days.

We aim to be proactive in our approach to quarantine and restrict visitors as a result. We ask that family members and visitors please refrain from visiting Roselani Place. This will continue until such time as all residents and staff test negative and spend 14 days restricted from contact with others; under the advisement from the Department of Health.

Video chat services will be provided if you would like to speak with your loved one. Please contact our Activity Department at Roselani Place to arrange this service.

We will provide updates every week as the situation progresses, and appreciate your understanding of this unfortunate situation.

All inquiries on this topic should be directed to the General Manager, Faith Gianan. Faith@roselaniplace.com or 808-871-7720.

Thank you for all your support in our efforts to provide care for our Kupuna.

Best regards,

Karl Drucks
